

HID ATOM™

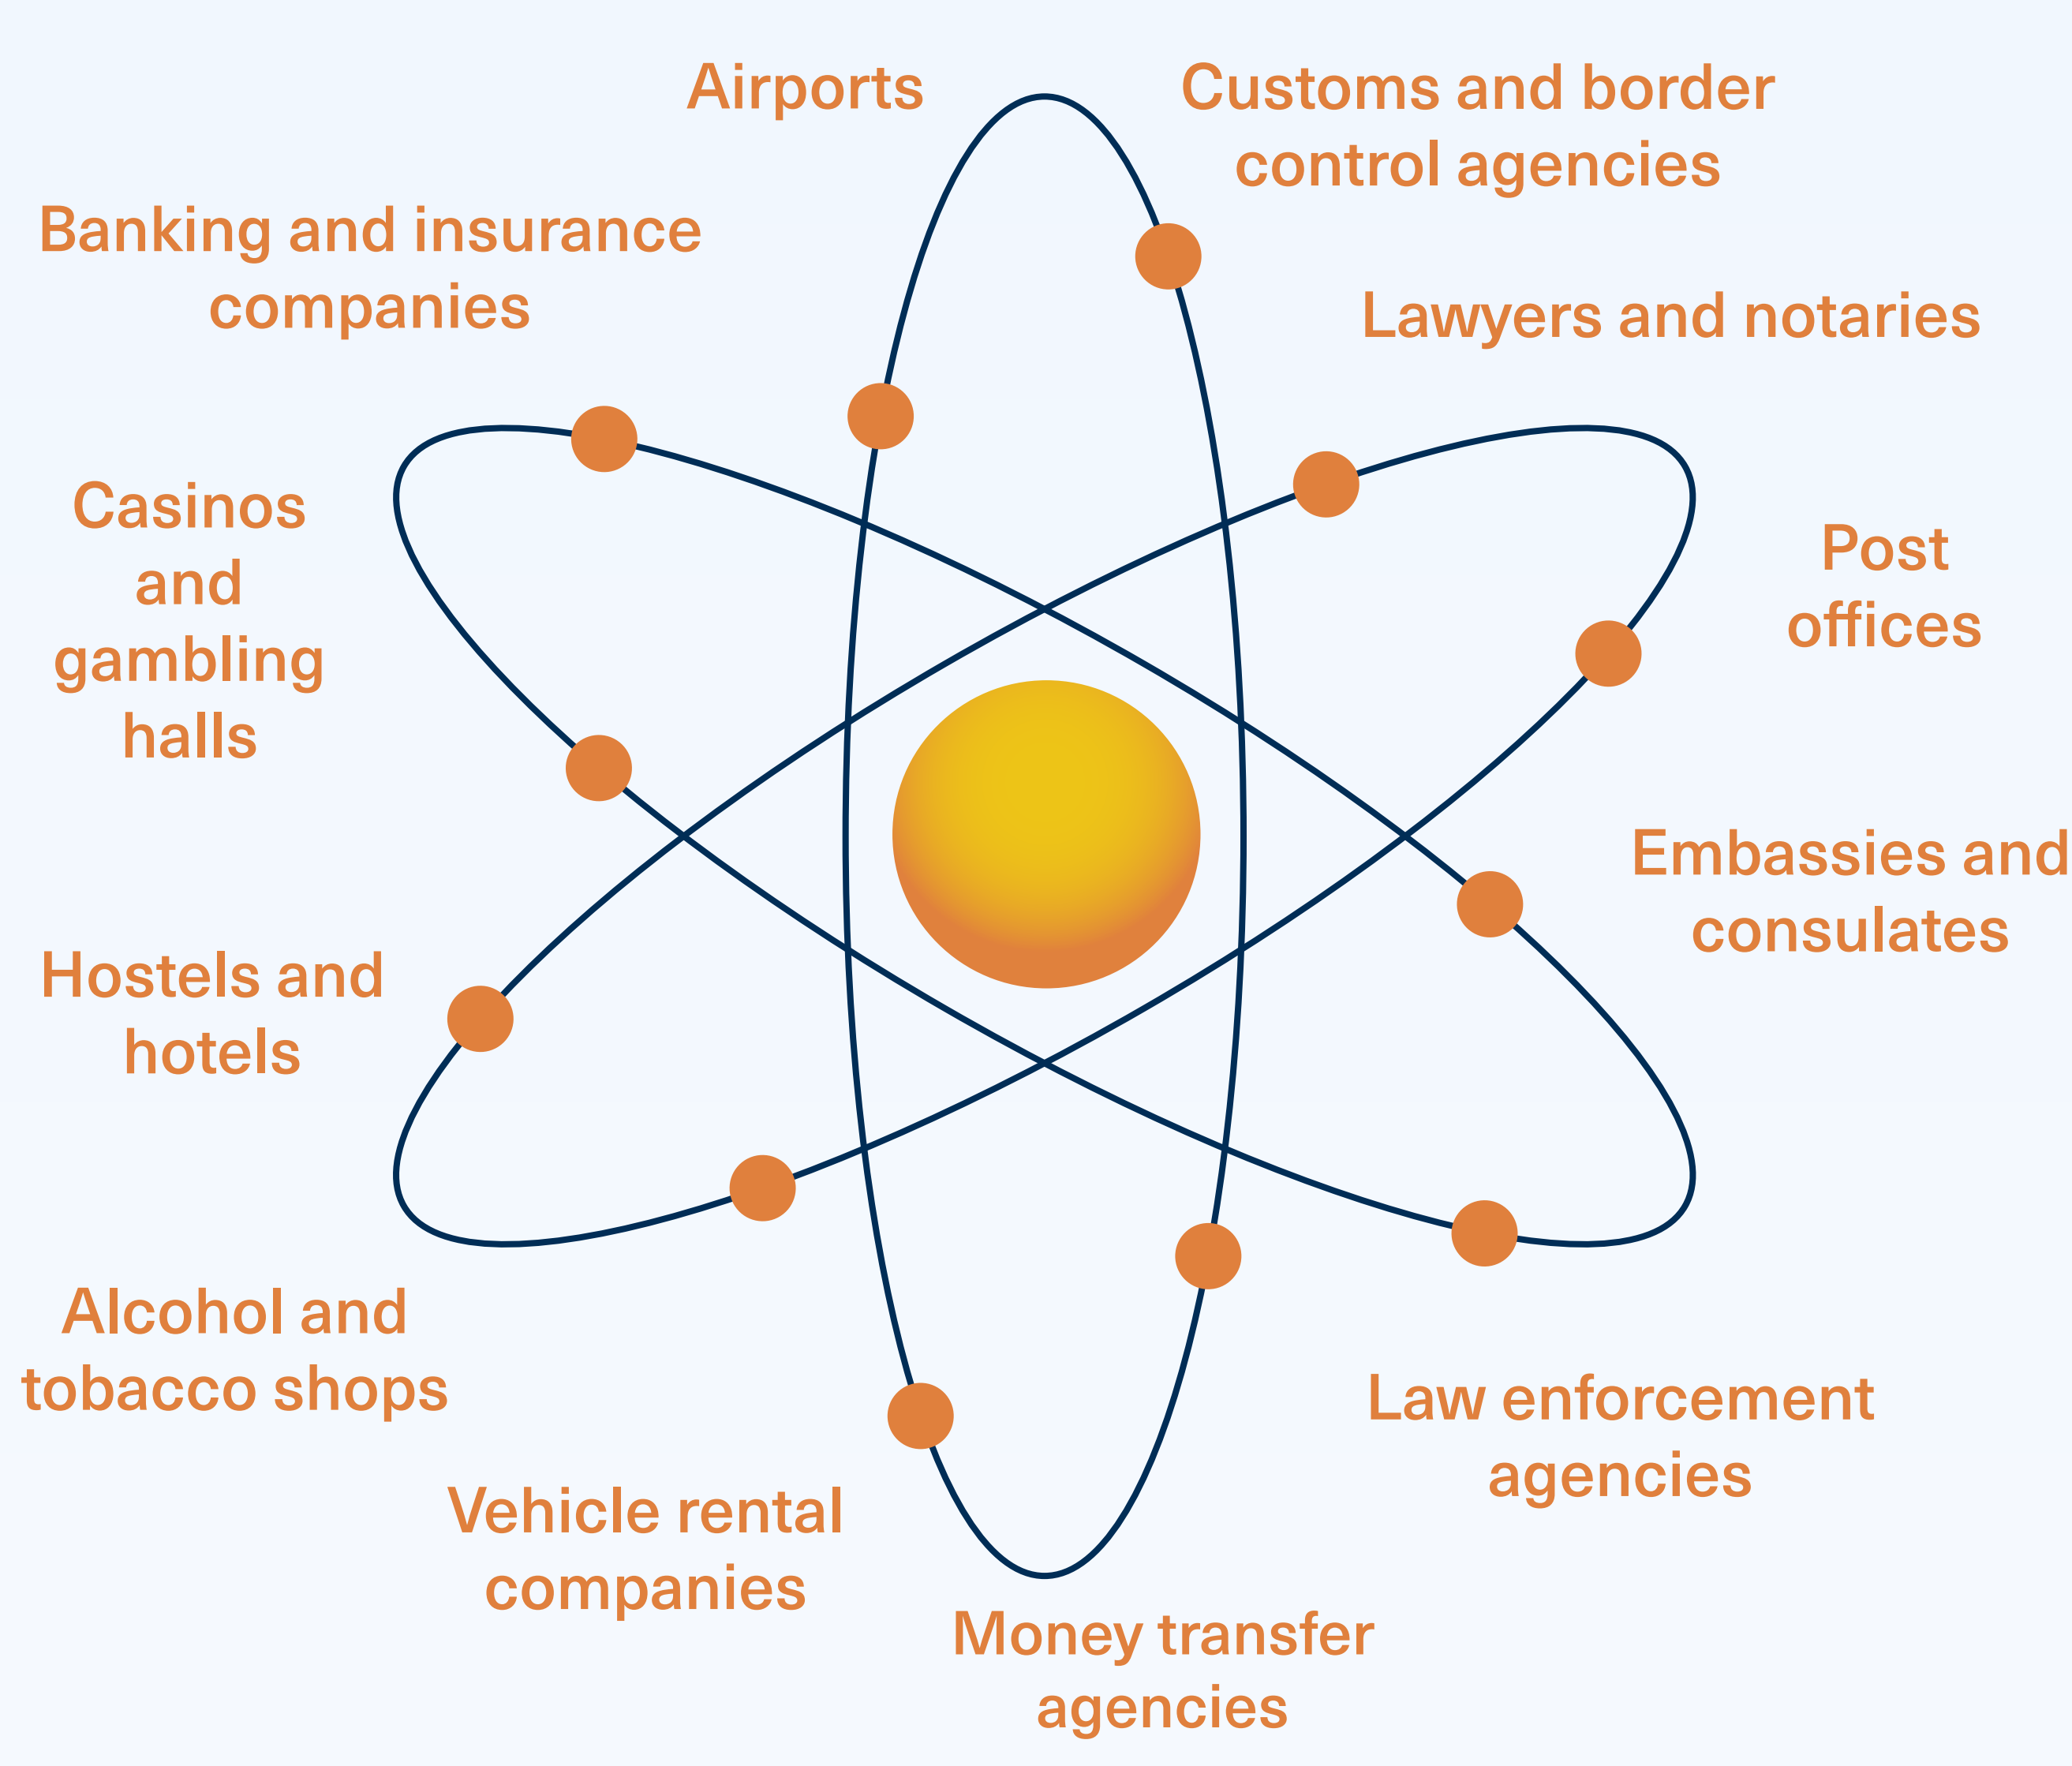

Full-Page Document Imager and eMRTD Reader

Easy to use | Multi-purpose | Innovative design

High-speed operation | Simple to integrate

ATOM powers efficient data capture and identity verification checks for governmental entities and commercial organizations including:

Fast and Efficient

ATOM reads the **MRZ** and **data page** at the same time for **super fast data capture**

Intuitive Operation Guaranteed

ATOM reads driving licences at any angle and on either side

Innovative “**shark fin**” document guides ensure that even the most widely travelled documents quickly slide onto the glass for a perfect read
