Opportunity Registration Request

The HID Global Opportunity Registration Program is designed to reward our Advantage Partners for their part in influencing the sale and installation of HID iCLASS products. This form must be completed and returned to your HID Global Sales Manager for approval. Only opportunities choosing HID iCLASS technology are applicable. The form must be completed in its entirety to be considered for approval.

An approved Opportunity Registration is only offered to a participating HID Global Advantage Partner. If all requirements of this program are met, the Advantage Partner will receive an additional discount off the list price of qualifying HID Global products listed on this request. It is the Dealer's responsibility to ensure the Opportunity Registration (OR) discount code is attached to the Purchase Order (PO) that is received by HID Global. This includes products purchased through a second party (e.g. Distributor, OEM or VAR).

Although this Opportunity Registration is attached to the Dealer specified, the current discount offered is only valid on the first order received for the project listed. A new Opportunity Registration Request form must be submitted each time prior to placing orders for split PO's and/or expansion to the original registered opportunity. Registration discounts can not be combined with any other special offers. Standard HID Global Terms and Conditions apply (refer to HID Global Worldwide Sales Policy at http://www.hidglobal.com/page.php?page_id=359).

***An Opportunity is defined as an end-user purchasing product through an Advantage Partner (dealer) of HID Global products.
