

# Employee Badge in Apple Wallet

**Easy. Convenient. Private**

Ready to simplify the way employees access what they need to power their workday?

Available with HID Global, employee badge in Apple Wallet allows staff and guests to easily access their corporate spaces with just their iPhone or Apple Watch—from doors and elevators to turnstiles, printers, and more. Employees just need to hold their iPhone or Apple Watch near the reader to unlock. It's easy, convenient, and private. **Get started today.**

## Secure Areas

From offices to conference rooms to VIP lounges, access can be provisioned granularly — so the right person has the right access at the right time.

## Elevators

Grant access to elevators and specific floors on a user-by-user basis without worrying about lost cards or PINs, thanks to technology that's already integrated with existing solutions.

## Secured Printers

Protect sensitive documents from theft by ensuring they're only released when the user's employee badge in Apple Wallet is presented.

## EV Charging Stations

Employees can now use employee badge in Apple Wallet to unlock secured EV charging stations. Make it even easier for end-users to go green.

## Secured Parking

The building's security perimeter should extend beyond the building itself. Provide convenience and peace of mind by securing areas where employees park their vehicles — with employee badge in Apple Wallet.

## Front Doors

Unlock building doors with just a tap of iPhone or Apple Watch, without unlocking the device or opening any apps.

## Turnstiles

Authorized employees flow through turnstiles without congesting lobbies, thanks to employee badge in Apple Wallet's fast read speed and simple user experience.

## Laptops and Workstations

Forget complicated passwords to log-in at hot desks or while working remotely. Users can unlock access to laptops, networks and workstations simply and securely.

**Employees can access anything they need for work using just their iPhone or Apple Watch.**

With Express Mode, you don't need to wake or unlock your iPhone or Apple Watch to use your badge in Apple Wallet.

**Learn more** about seamlessly securing physical and digital spaces with employee badge in Apple Wallet.
