Key Benefits of Biometrics

- **Prove Identity:** Biometrics provide proof-of-presence irrefutably, identifying who did what and when.
- **Prevent Fraud:** No one can pretend to be someone else to steal or defraud.
- **Improve Efficiency:** Fingerprint biometrics streamline workflows. With the simple touch of a finger, authentication happens in less than a second.
- **Save Time and Money:**
 - No need to remember, enter and change long passwords
 - No need for expensive password resets
 - No provisioning or replacing cards or tokens
 - Properly authenticate users for time and attendance
 - Streamline authentication and verification of identity

Key Industry Use Cases			
Retail & Hospitality	Healthcare	Pharmacy	Finance & Banking
Stop buddy punching	Provide fast, accurate patient registration	Establish irrefutable Rx fulfillment accountability	Secure wire transfers
Ensure proper staffing levels	Secure EMR access	Streamline Rx workflow with one-touch fingerprint authentication	Secure account access
Prevent unauthorized manager overrides	Control access to pharmaceuticals	Create chain of trust and accuracy	Enhance transaction security and levels of approval
Expedite POS login and checkout	Expedite login to shared kiosks and carts	Prevent errors in Rx dispensing for improved patient outcomes	Ensure compliance (AML and KYC)
Secure POS access		Provide positive ID for regulatory compliance: • DEA Electronic Prescription of Controlled Substances (EPCS) • CFR Title 21 SS 1306.06
