## KEY BENEFITS

- Fast, reliable credential capture**  
Optimized imaging delivers high-speed reading of 1D/2D barcodes and QR codes — even at multiple angles
- Broad credential support across the series**  
Options for barcode, RFID/NFC and HID credential reading enable deployments to be tailored to specific use cases and evolving requirements
- Simple, intuitive operation**  
A single touchpoint with clear audio and visual feedback makes credential validation easy and efficient for users
- Built for durability and easy deployment**  
Rugged, IP54-rated design with single-cable connectivity and flexible mounting supports reliable performance and fast installation
