

TableTop Station

HF Station for Textile Management Applications

The HID Textile Services TableTop Station is a UHF RAIN® RFID smart station featuring a large flat desktop antenna that provides an extended reading zone, enabling efficient processing of RFID-enabled textile items.

The solution also comes with an 11" tablet (with table or wall-mount options), a high-performance RFID reader, and a powerful microcomputer connecting with HID's ACUITY cloud-based linen management platform.

The TableTop Station ensures autonomous operation and continuous performance, even in the event of network connectivity loss. It also supports remote configuration, monitoring and software upgrades for simplified management.

TYPICAL APPLICATION:

- Textile item registration
- Item history and quality control tracking
- Rewash request handling
- Textile discard and lifecycle management

KEY BENEFITS:

- High-performance read/write capability
- User-friendly interface
- Quick and easy installation
- Remote management and maintenance
