

HID's InvoTech On-Prem Uniform System

HID's InvoTech On-Prem Uniform System eliminates daily manual tasks, automates record keeping and has powerful reporting capabilities to provide real-time information for efficient uniform operations.

Improves Labor Productivity

By eliminating manual tasks, automating recordkeeping, and improving information.

Eliminates Losses

Associated with employees and daily laundry activity.

Reduce Purchases

By knowing exactly what to purchase to maintain quality standards and optimum inventory levels.

Lower Laundry Expenses

By controlling cleaning activity and preventing overcharges from outside laundries.

TOTAL INVENTORY CONTROL

HID's InvoTech On-Prem Uniform System manages all uniforms throughout their life – from purchasing and daily use, to final discard. The system knows exactly what uniforms are in inventory, where each garment is located, and who is responsible for them. The system reads the RFID tags attached to the uniforms and constantly updates the status of each garment.

PROVIDES CRITICAL INFORMATION

- Uniform types, sizes and quantities by location (In Stock, At Employee, and At Laundry).
- Employee uniform assignments, values, and responsibilities.
- Uniforms sent to the laundry and received back clean.
- Uniforms not returned by the laundry and the value.
- Laundry charges based on uniform types and quantities.
- Aging of inventory based on wash cycles and days active.
- Ensure quality control and forecast purchases.
- Exact uniforms, sizes and quantities to purchase based on inventory levels, usage, and aging.
- Inventory value by department.

The InvoTech On-Prem Uniform System has a number of special features that make it the most comprehensive and easiest to use uniform management system on the market.

POWERFUL REPORTING

The InvoTech On-Prem Uniform System provides more than 125 different reports detailing all aspects of uniform department operations. Reports are grouped by category for easy access to the information needed.

- Employee Reports
- Purchasing & Sales Reports
- Cleaning Reports
- Locker Reports
- Pick-Up Report
- Production Reports
- Repair Report
- Multi-Property Reports
- Inventory Reports
- Custom Reports

When generating reports, filters and special criteria can be selected to tailor the information as needed. In addition, custom reports can be created and the queries can be saved to reuse. Reports can be generated to a PDF file, emailed, printed and viewed on the screen. Reports can be scheduled to be automatically emailed to selected individuals at regular intervals – daily, weekly or monthly. All information regarding uniform operations is easily accessed and distributed.

AUTOMATES DAILY PROCESSES

The InvoTech On-Prem Uniform System eliminates many labor-intensive manual tasks, such as separating and hand-counting uniforms being sent to the laundry. The RFID Laundry Cart Reading Station automatically identifies and counts the uniforms. The recording of uniforms picked up and returned by employees can also be automated. RFID portable handheld readers can be used for a variety of functions including automating a physical inventory.

RFID TECHNOLOGY

The InvoTech On-Prem Uniform System integrates the latest RFID and wireless technology to enable the most efficient uniform operations and 100% control of inventory.

Multiple uniforms with RFID tags can be identified and processed simultaneously. The RFID tags are designed to withstand all laundry processes. InvoTech provides the appropriate RFID equipment for each uniform operation.

- RFID Uniform Inventory Reading Station
- RFID Laundry Cart Reading Station
- RFID Uniform Pick-Up/Return Reading Station
- RFID Uniform Self-Issue Reading Station
- RFID Soiled Uniform Check-In Reading Station
- RFID Restricted Uniform Control Reading Station
- RFID Portable Handheld Reader

HID has a long history of leading the textile services RFID industry. The includes more than 20 years in linen/garment identification and tracking for customers around the world such as linen manufacturers, industrial laundries, hotel groups and resorts, as well as healthcare facilities. HID's value as an industry leader is to provide reliable high-quality products with global support.

The InvoTech On-Prem Uniform System integrates the latest RFID and wireless technology to enable the most efficient uniform operations and 100% control of inventory. Hundreds of satisfied customers utilize the InvoTech system worldwide.

The InvoTech On-Prem Uniform System integrates the latest RFID technology for the most efficient uniform operations.
