

InvoTech Cloud

Cloud-Based Uniform Management Software

A comprehensive set of uniform inventory management functionalities and reporting that is easy to use and simple to install

HID's InvoTech Cloud is an RFID-based uniform management system designed to track uniforms assigned to employees in the hospitality industry in various functions such as front desk, bell desk, concierge, restaurants, banquets, pool/beach and sports.

Combined with HID's industry-leading RFID tags, a convenient desktop heat-seal machine for RFID labeling and a high performance Wi-Fi handheld scanner device, the InvoTech Cloud system features web browser access to monitor uniform inventory levels, and to track laundry activity — anytime, anywhere. With over fifty reports available, the system

can manage uniform types and sizes, and provide total inventory control from purchase and daily use to final discard.

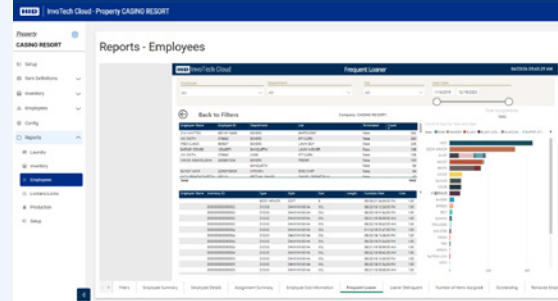

HOW IT WORKS

RFID-enabled items are scanned with the handheld device, and data is sent to the cloud database to be reported. In case of network loss, scanning events are buffered and then re-synchronized once connectivity is restored.

DATA ADMINISTRATION

The portal allows for the administration of all data objects necessary to organize the system, including:

- Property information
- Divisions, departments, jobs and job item definitions
- Laundries
- Manufacturers
- Types, sizes and lengths
- Inventory locations
- Lockers, locks and slots
- System configuration

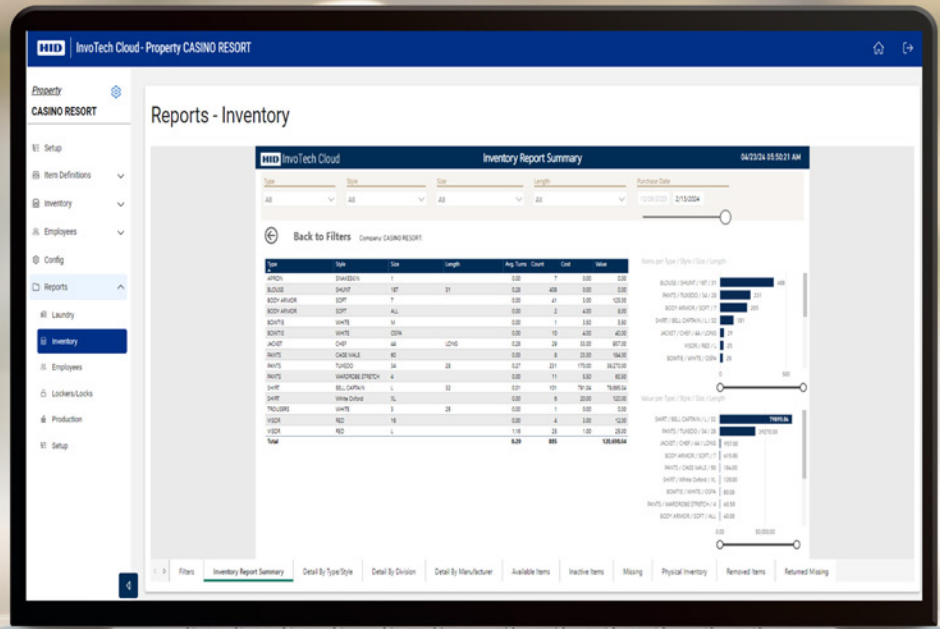

KEY BENEFITS:

InvoTech Cloud is a very flexible solution, offering:

- Reduced IT requirements
- Minimum hardware required
- SaaS business model
- Remote system monitoring
- Automatic updates
- Secure token-based authentication using Cognito
- Web browser access — anytime, anywhere

Powerful reports and dashboards

MOBILE APP ON A POWERFUL INTEGRATED HANDHELD READER	
Laundry	Receiving Clean, Shipping Soiled out
Employees	Search & Add Employees
Inventory	Search & Add Inventory
Additional Tools	Physical Inventory, Unassign Multiple, Delete Inventory, Move Inventory to Storage, Tag validation & Employee Garment Labels Printing
Working conditions	Work Connected thru Wi-Fi anywhere on the property -or- Work in seamless, disconnected mode without any loss of tracking info
ADMINISTRATION	
Setup	Divisions, Departments, Jobs & Job Items Definition
Item Definitions	Adding New Items, Laundries & Manufacturers Management
