SIMPLIFIED COMPLIANCE

HID® offers both on-prem and SaaS authentication solutions to fit the unique needs of your healthcare facility. We offer the industry's widest range of credential choices, including:

- Credential management solutions
- Identity management solutions
- Composite authentication
- Proof of presence
- Physical security
- Advanced bio-security

SAFETY & SECURITY

We make it easy to boost safety and security for staff and patients with best-in-class physical access control solutions that are tightly linked to secure visitor management. These systems support identity proofing and automated identity provisioning so healthcare providers can access and authorize disparate physical places, allowing centralized control for distributed ID printing.

WORKFLOW EFFICIENCY

HID's healthcare solutions provide an easy onboarding process for credentials, supporting an array of choices for physical and logical access. We empower you to provision and revoke credentials through the air, leveraging central control through distributed issuance. This ultimately saves time and resources by providing multiple uses for a single credential across systems..

HEALTHCARE SOLUTIONS FROM HID

HID Global is a solutions-oriented partner for healthcare providers with 40+ years' experience securing the identities of people and assets across boundaries from physical to logical, passive to active.

HID offers the most comprehensive platform of secure identity management solutions, leveraging the widest array of credential choices to ensure you are empowered to simplify compliance, elevate security and safety, and automate workflow efficiencies.
