

SMART LOCKERS

Multi-Purpose Wonders

Multi-Scenarios

Multi-Verticals

Corporate

Support hybrid workers, hot-desking, protect IT assets (laptops, cameras) and sensitive documents

Healthcare

Manage drug dispensing, medication and emergency service items (radios, body cameras, etc.)

Hospitality

Elevate the brand experience with storage for employees and guests across facilities (spas, gyms, etc.)

Education

Store books, IT assets, sports equipment, musical instruments and lab materials

Retail

Monitor click-and-collect grocery and package pickup and secure storage for outlet/mall patrons

Entertainment and Fitness Centers

Storage for visitors, members, employees and instructors

Multi-Value-Props

Leverage existing employee/student credentials for secure storage and a seamless user experience

Contactless authentication options via RFID and mobile readers

Compact reader modules sized for easy locker retrofit/integration

Full audit trail tracks locker access and device usage

Connected workplace environment built around mobility and security

Want to see all the wonders in store with HID RFID authentication for Smart Lockers?
