

TTS500-XS Kit for e-Portal

HID's TTS500-XS Kit for e-Portal includes HID's TTS500-XS reading station, three UHF antennas and a set of stack lights for illuminated read status indication.

The TTS500-XS station offers a high read rate in a small footprint design. It's a 'smart' station featuring the most advanced RFID technologies, combined with a powerful microcomputer embedding HID's Acuity cloud-based linen management platform. It does not require external gateways and keeps operating even in case of network connectivity loss. It can be remotely managed for configuration, monitoring and upgrades. It features three external RF ports to connect the three UHF antennas provided in the Kit.

HID Textile Services provides an innovative and highly performant Cloud-based Linen Inventory Management Platform (ACUITY), enabling the industrial Laundry industry worldwide as well as their Hospitality and Healthcare customers, to gain continuous access to real-time inventory visibility/availability of their textile assets and to make intelligent business decisions to increase their profitability.
