

Varying Degrees of Electrification

Electric Vehicles Asia-Pacific (APAC) Market

Top 3 Asia-Pacific Countries

China

The world's largest producer AND consumer of **EVs**

Beep Beep

What's Fueling the Growth of EV Charging Stations Across APAC?

- Government initiatives to drive the adoption of EVs
- Rising demand for EV fast-charging infrastructure
- Increasing deployment of EVs by shared mobility operators
- Widespread support for installing EV charging stations in major cities
- Setting emission standards

APAC Fragmentation: Different Speeds of Adoption

Number of Publicly Accessible EV Chargers in 2021

But a Charge Is Coming ...

By 2030:

- Malaysia plans to build 25,000 public charging points
- Singapore plans to install 60,000 charging points

Australia Fun Fact

RFID

Secure EV Charging With RFID Authentication

As EV charging stations canvas the globe, businesses will need proven, easy-to-use technologies to identify and authenticate users while at the same time protecting data, systems and power grids. HID is here for it all!

- Trusted:** RFID authentication solutions
- One Credential, Multiple Applications:** Extend and retract access to users/customers/guests/visitors via one credential (card, phone, fob or wearable)

- Security:** End-to-end encryption
- Flexibility:** Evolve your system by easily adding, deleting and upgrading user credentials without changing the infrastructure of the charging station

HID: Plugged-in to Deliver

Follow us on our path to helping businesses secure their **EV charging journey**
