

WHAT IS NFMI?

Near-field Magnetic Induction (NFMI) is a wireless communication system that uses low power and low frequency electromagnetic waves. Our beacons broadcast information using **NFMI**, which is captured by your badge precisely, down to the centimeter.

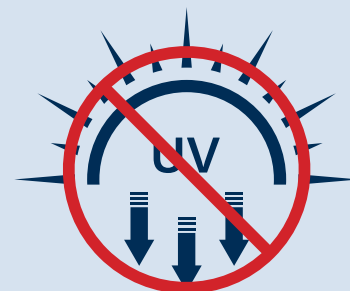

Is NFMI Technology Safe? **YES!**

NFMI is used in FDA-approved devices and uses low radio frequencies known to be safe, the same range as AM/FM radio or broadcast TV. It is safe for use by staff who may be pregnant or breastfeeding.

NFMI does NOT use high radio frequencies known to be dangerous (such as X-Rays or UV light from the sun).

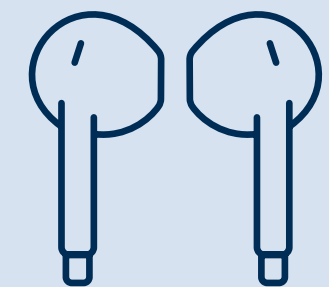

Where Is NFMI Commonly Used?

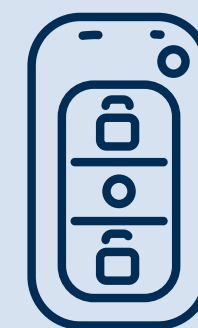

Pay by Phone

Pacemakers

Wireless Earbuds

Key Fobs

Hearing Aids

HAND HYGIENE
SOLUTIONS
