

Wireless Keypad

WK

DESCRIPTION:

The WK is a wireless keypad that is designed to work with a GuardRFID® Tag Reader Controller to authenticate users at access points. The keypad features an audible buzzer and LED indicators to inform you of the keypad status and alarm events.

The keypad can be connected to the AllGuard® software so it can be configured to bypass or reset specific alarms. Additionally, the AllGuard software allows you to configure the keypad and set the audio alert levels.
