

Workplace Safety

Provide a Safe and Compliant Work Space

**Help staff feel safe working
in healthcare**

WHAT ARE THE BENEFITS?

- Fast set up using real-time location hardware and secure cloud software that allows the solution to be up and running within days
- Monitor employees, contractors using Bluetooth Low Energy (BLE) enabled credentials, without compromising privacy.
- Empower staff with a wearable duress button that provides real-time alerts to responders.
- Give staff a sense of safety and increase workplace satisfaction

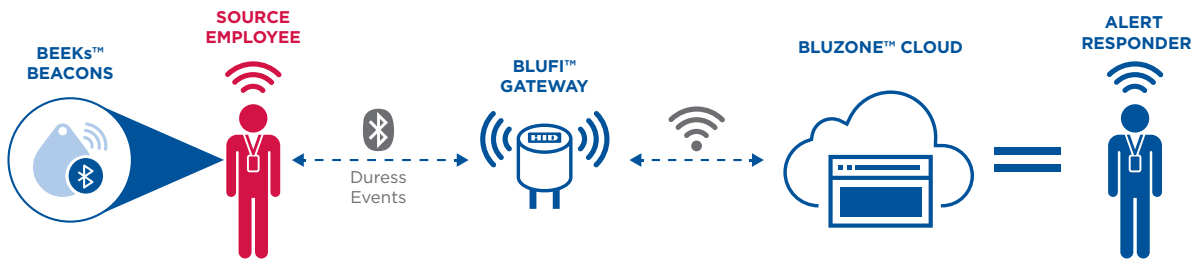

Implement a real-time, actionable solution to keep staff safe

Organizations need to restore productivity and at the same time assure their employees are safe when they are within the walls of their facilities.

HID, a leader in BLE and cloud-based Location Services technology, has developed a solution to empower employees to activate duress calls and trust that help will come in response.

Workplace Safety solution includes wearable devices, cloud based dashboards and APIs to deliver real-time insights.

Implementing the HID Workplace Safety solution helps organizations keep their staff safe and ensure they can care for patients without fear.
