Fraud Prevention Integrated Across Your Digital Customer Journey

Customers of banks and financial service providers expect security but demand convenience.

HID offers Identity & Access Management (IAM) solutions that deliver a better user experience to help retain banking customers, while protecting against data breaches and fraud.

Trusted By:

Intelligent Digital Security Solutions from HID

HID IDENTITY VERIFICATION

Protect accounts from the very start and prevent fraudulent identities with AI-powered digital identity verification. Designed for secure and speedy customer onboarding, HID Identity Verification supports eKYC, AML and works in seconds to confirm customer identities using automated document ID verification and biometric selfie facial matching.

- **Fully customizable:** Customize the user experience in minutes to meet your ever changing organizational needs, and integrate it within days.
- **Fully automated technical checks:** With AI enabled and non-human assisted checks, HID Identity Verification considerably reduces errors, security risks and operational costs.™
- **Enables compliance:** with eKYC requirements from governmental bodies around the world.

HID AUTHENTICATION PLATFORM

Seamless, intelligent and intuitive consumer authentication for ultra-secure login and transaction signing. Available as a service (SaaS) or on premise.

- **Scalable:** Cloud-native software can scale to millions of users quickly and easily accommodate peaks in customer demand.
- **Compliance:** Enables compliance with central banking and data protection regulations.
- **Highly compatible:** Built on open standards and compatible with a wide variety of authentication methods, including hardware tokens for OTP, FIDO authenticators, out-of-band SMS and email, as well as the award winning HID Approve (SDK or stand alone application) for push-based, OTP or QR code authentication.

HID RISK MANAGEMENT

An integrated and comprehensive fraud mitigation solution, combining real-time threat detection and powerful defense mechanisms, based on AI powered behavioral biometrics and device identification. Together with HID's Fraud Advisory and Mitigation Services – a dedicated group of fraud analysts, cybersecurity engineers and cybersecurity advisors – HID Risk Management Solution delivers comprehensive protection against even the most sophisticated fraud types.

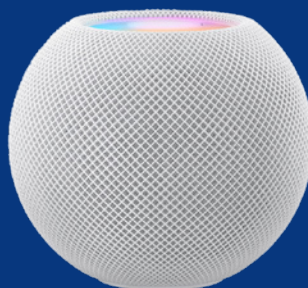

- **Proactive:** Always a step ahead of the modern fraudster, by blending human expertise with cutting-edge technology.
- **Preventive:** State-of-the-art user profiling and 0-day malware protection.
- **Predictive:** Pinpoint accuracy with behavioral biometric technology.
- **Seamless user experience:** Undetectable for your customers, while providing a rich analytical interface for your organization.
- **Regulation compliance:** Rules-based processes make it easy to comply with data protection and central banking legislations.
